

LAMP Project – Visiting badge system

Make a visitor system that can print name tags.

You should be able to register:

Full name:

Mobile Number:

Errand (Course):

Visiting time (date from-to):

As a bonus, you should be able to take a photo and add.

The printout should be with all data + a logo to be entered.

You should be able to printout a list who is in the building.

All data should be stored on a MySQL Database (If you want to On a Linux environment). Basis Should be developed in PHP.
